

# Web Browsers

Thursday, 02 July 2009

A little bored today so why not compile a list of web browsers? There are some really good ones like Flock, Shiira, and Maxthon so if you're looking for a new browser here are your choices. There are more, but these are all free. If you were to ask which browser I use I would answer Firefox on desktop and Safari on iPhone. Firefox is my personal favorite. Also, I was curious about older browsers I used in the past so if you want an older browser like Mosaic, yes Mosaic, I found an archive site with all the old browsers...

Updated July 2, 2009 to include mobile browsers.

Orca	Windows
Chrome	Windows
Chromium	Windows, OS X, Linux (built off Chrome - not ready for non-developer/tester usage.)
Flock	Windows, OS X, Linux
Safari	Windows, OS X
Seamonkey	Windows, OS X, Linux
Firefox	Windows, OS X, Linux
Camino	OS X
Opera	Windows, OS X, Linux
Shiira	OS X
Wyzo	Windows, OS X
Maxthon	Windows
Avant	Windows
Sunrise	OS X
Phaseout	Windows
K-Meleon	Windows
Konqueror	Linux (Geared towards KDE)
Epiphany	Linux (Geared towards Gnome)
Galeon	Linux (Geared towards Gnome)
Amaya	Windows, OS X, Linux
Chimera	Linux
Lynx	Windows, OS X, Linux (Console text only browser)
Slimbrowser	Windows
KidRocket	Windows (Designed for children)
ShenzBrowser	Windows
Internet Explorer	Windows

Note: Linux also implies Unix. Some browsers, like IE 7 and Safari work in Linux using Wine. Check Wine-Doors as they may appear for easy install.

Visit the browser archive where you can still download Mosaic!
